

## PARIS! Workshops: 8 June & Conference 9-10 June, 2010

### What is IEPEC?

The International Energy Program Evaluation Conference is a professional conference for energy programme implementers and evaluators.

### Who should attend?

Policymakers aiming to improve energy efficiency and address climate change and evaluation professionals involved in energy efficiency and climate change. These professionals will be able to meet and share experiences with others interested in energy efficiency evaluation and meet experienced evaluators from around the world.
